Cross-Reference Index

To Articles Contained In

Pantera International News

and

Pantera Technical Information Series

and

Ford Pantera Technical Service Bulletins

Revised January 2000

By Gary Anderson
Kalamazoo, Michigan

How to use this index

PANTERA INTERNATIONAL NEWS (P.I. NEWS) quarterlies are each assigned an issue number in the cross reference chart on page 3. For example, Issue 24 is Vol. 6, No. 4. published in 1980. The more recent “color cover” issues, starting with number 68, have the issue number printed on the front cover. Articles are indexed by their issue number followed by the page number on which the article appears.

Example: ***Transaxle, Breather 24-30*** indicates that in Issue 24 on page 30 there is an article dealing with adding a filter to the transaxle breather outlet to prevent contamination.

P. I. TECHNICAL INFORMATION SERIES (TIS) articles are indexed by their group number followed by the article number.

Example: ***Fuel Tank, Repair TIS 24-6*** refers to the Technical Information Series, Group 24, Article 6, which describes a procedure for sealing leaks in the fuel tank.

The TIS cross-reference chart, beginning on page 4, identifies the issue of the P.I. NEWS which included the TIS article; in this case Vol. 5, No. 2.

Ford **TECHNICAL SERVICE BULLETIN** (TSB) articles are indexed by their bulletin number followed by the article number.

Example: ***Fuse Holders TSB 6-47*** refers to Ford Technical Service Bulletin Number 6, Article 47, which discusses spring tension in the fuse holder brackets.
